### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: The prior art alone or in combination fails to teach, disclose, or suggest the combination of limitations as claimed including patterning the crystallized amorphous silicon layer by holographic lithography and a dynamic auto focus system and patterning other than patterning the crystallized amorphous silicon layer by stepper exposure. Though stepper exposure, holographic lithography and a dynamic auto focus system are known in the prior art separately no suggestion was found for using these techniques in the manner claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
